Supplement to the

"Proceedings of the Indian Academy of Sciences"

INDEX TO VOL. LXXVI (A)

AUTHORS' INDEX

Balasubramanian, R. and Ramakrishnan, C.		Refinement of the function for the evaluation of the N–H..O hydrogen bond potential energy, 21.
Bhagavantam, S. and Chandrasekhar, P.		Harmonic generation and selection rules in non-linear optics, 13.
Bhandari, N., Goswami, J. N., Lal, D., Macdougall, D. and Tamhane, A. S.		A study of the vestigial records of cosmic rays in lunar rocks using a thick section technique, 27.
Chandrasekhar, P.	..	*See* Bhagavantam and Chandrasekhar.
Chariar, V. R.	..	On integral functions of finite order with an exceptional-P value, 162.
Chaughule, R. S. and Gupta, L. C.		NMR studies of reorientational correlation times in dimethyl sulphoxide, 153.
Doraiswamy, S.	..	*See* Sharma and Doraiswamy.
Gopal, E. S. R.	..	Are critical exponents multivalued or unique?, 176.
Goswami, B. and Sinha, S. R. P.		Irrotational solitary waves with surface-tension, 105.
Goswami, J. N.	..	*See* Bhandari and others.
Gupta, L. C.	..	*See* Chaughule and Gupta.
Gupta, T. R.	..	Solutions of thermal boundary layer equations when temperature gradient at the moving flat plate in parabolic flow is prescribed, 59.
	..	Parabolic flow over a flat plate with wave disturbance in the main stream, 137.
Kalidas, C., Rao, D. Lakshmana and Rao, V. Srinivas		Acidity function in dipolar aprotic media, 51,

Khandual, Nrusingha C., Satpathy, Kamala K. and Nayak, P. L. — Kinetics of the thallic ion oxidation of olefins, 129.

Krishnamurthy, G. .. *See* Venkitachalam and others.

Krishnan, R. S. .. *See* Sankaranarayanan and Krishnan.

Lal, D. .. *See* Bhandari and others.

Lingam, K. V., Nair, P. G. and Venkataraman, Balu — Spin-lattice relaxation studies on semiquinone ions, 207.

Macdougall, D. .. *See* Bhandari and others.

Nair, P. G. .. *See* Lingam and others.

Narasimham, N. A. .. *See* Venkitachalam and others.

Nayak, P. L. .. *See* Khandual and others.

Prabhananda, B. S., Shah, S. J. and Venkataraman, Balu — Electron spin resonance studies of the ligand exchange in cupric complexes with diethyldithiocarbamate and diethyldithiophosphate as ligands, 231.

Ramakrishnan, C. .. *See* Balasubramanian and Ramakrishnan.

Ramana Murthy, P. V. and Subramanian, A. — Primary cosmic ray nucleon spectrum from sea-level muon spectrum and scaling hypothesis parameters, 1.

Rao, D. Lakshmana .. *See* Kalidas and others.

Rao, V. Srinivas .. *See* Kalidas and others.

Rao, V. V. Ramana and Sithapathi, A. .. A note on hydromagnetic oscillatory flow along an infinite flat plate with variable suction, 157.

Rastogi, R. G. .. Equatorial sporadic E and cross-field instability, 181.

Reddy, Y. D. and Somayajulu, V. V. — Synthesis of some chromono (6, 7) oxazoles and their physiological activity, 263.

Revathy, Miss K. .. *See* Viswanathan and Revathy.

Sacheti, N. C. .. *See* Verma and Sacheti.

Sankaranarayanan, V. N. and Krishnan, R. S. — Raman and infrared spectra of ammonium selenate and lithium ammonium selenate, 267.

Satpathy, Kamala K. .. *See* Khandual and others.

Setty, T. H. V. .. *See* Sheshadri and Setty.

Shah, S. J. .. *See* Prabhananda and others.

Shanmuganathan, Sp. and Subramanian, V. Kinetics of bromine addition to unsaturated sulphones. Parts V, VI, 72, 79.

Sharma, S. D. and Doraiswamy, S. Microwave spectra and centrifugal distortion constants of orthofluoropyridine, 221.

Sheshadri, B. S. and Setty, T. H. V. Electrodeposition of copper on copper single crystal (100), (110) and (111) planes, in presence of thiosemicarbazide, 167.

Singh, A. .. *See* Singh nad Singh.

Singh, Harinder and Singh, A. Thermal deformations of a sphere by radiation from a point source, 247.

Sinha, S. R. P. .. *See* Goswami and Sinha.

Sitapathi, A. .. *See* Rao and Sithapathi.

Somayajulu, V. V. .. *See* Reddy and Somayajulu.

Subramanian, A. .. *See* Ramana Murthy and Subramanian.

.. A possible cosmic ray primary particle energy spectrum above 10^4 GeV and its astrophysical implications, 121.

Subramanian, V. .. *See* Shanmuganathan and Subramanian.

Tamhane, A. S. .. *See* Bhandari and others.

Venkataraman, Balu .. *See* Lingam and others.

.. *See* Prabhananda and others.

Venkitachalam, T. V., Krishnamurthy, G. and Narasimham, N. A. Emission spectrum of PrO, 113.

Verma, P. D. and Sacheti, N. C. Non-torsional oscillations of a disc in rotating second order fluid, 87.

Viswanathan, K. S. and Revathy, Miss K. Pitch angle scattering into loss cone by cyclotron resonance, 195.

TITLE INDEX

Acidity function in dipolar aprotic media (Kalidas and others), 51.

Chromono (6,7) oxazoles, some, synthesis of, and their physiological activity (Reddy and Somayajulu), 263.

Copper, electrodeposition of, on copper single crystal (100), (110) and (111) planes in presence of thiosemicarbazide (Sheshadri and Setty), 167.

Cosmic rays in lunar rocks, a study of the vestigial records of, using a thick section technique (Bhandari and others), 27.

Critical exponents, are, multivalued or unique? (Gopal), 176.

Dimethyl sulphoxide, NMR studies of reorientational correlation times in (Chaugule and Gupta), 153.

Disc in rotating second order fluid, non-torsional oscillations of a (Verma and Sacheti), 87.

Equatorial sporadic E and cross-field instability (Rastogi), 181.

Flow, hydromagnetic oscillatory, along an infinite flat plate with variable suction, a note on (Rao and Sithapathi), 157.

Flow, parabolic, over a flat plate with wave disturbance in the main stream (Gupta), 137.

Integral functions of finite order with an exceptional-P value (Chariar), 162.

Harmonic generation and selection rules in non-linear optics (Bhagavantam and Chandrasekhar), 13.

Kinetics of bromine addition to unsaturated sulphones, Parts V, VI (Shanmuga nathan and Subramanian), 72, 79.

Kinetics of the thallic ion oxidation of olefins (Khandual and others), 129.

Ligand exchanges in cupric complexes with diethyldithiocarbamate and diethyldithiophosphate as ligands, electron spin resonance studies of the (Prabhananda and others), 231.

N-H..O hydrogen bond potential energy, refinement of the function for the evaluation of the (Balasubramanian and Ramakrishnan), 21.

Orthofluoro-pyridine, microwave spectra and centrifugal distortion constants of (Sharma and Doraiswamy), 221.

Pitch angle scattering into loss cone by cyclotron resonance (Viswanathan and Revathy), 195.

PrO, emission spectrum of (Venkitachalam and others), 113.

Primary cosmic ray nucleon spectrum from sea-level muon spectrum and scaling hypothesis parameters (Ramana Murthy and Subramanian), 1.

Primary cosmic ray particle energy spectrum above 10^4 GeV, a possible, and its astrophysical implications (Subramanian), 121.

Raman and infrared spectra of ammonium selenate and lithium ammonium selenate (Sankaranarayanan and Krishnan), 267.

Semiquinone ions, spin-lattice relaxation studies on (Lingam and others), 207.

Solitary waves with surface-tension, irrotational (Goswami and Sinha), 105.

Sphere, thermal deformations of a, by radiation from a point source (Singh and Singh), 247.

Thermal boundary layer equations when temperature gradient at the moving flat plate in parabolic flow is prescribed, solutions of (Gupta), 59.
